

# Native American Homes

You are going to be building a Native American home. Copy and paste these links in your web browser to see these websites of different homes that the Native Americans used.

<http://www.native-languages.org/houses.htm>

<http://nativeamericans.mrdonn.org/homes.html>

You choose one of them and construct that type of home. You will also need to find out a little about that home.

1. Where was this type of home located?
2. What Native American tribe used that type of home?
3. What types of materials would the Native Americans used to build that home?
4. What did you use to build your model home?
5. Why do you think the Native Americans of that area choose to build that type of home?
